Why Choose Centre Technologies

When it comes to education technology, few companies can deliver as well as Centre.

Experience
Centre already works with several of Texas and Louisiana’s school districts, so we understand the unique needs of the education field.

Flexibility
Not every solution is right for every school - you need a system that works exclusively for you. Centre’s staff of IT experts know how to develop a solution that fits the needs of your organization.

Value
We provide the tools to let your schools enjoy the same security, mobility, efficiency, and scalability as major commercial industries while remaining within your budget.

Technology Solutions for Education

Mobility
Mobility has been proven to keep staff, parents, and students more engaged, and Centre has proven methodologies to seamlessly launch your mobility plans.

• Prepare students for a future in the mobile workplace
• Instant access to knowledge and collaboration tools
• Manage students’ access and permissions

VDI
Centre’s virtualization solution lowers your organization’s TCO while offering higher efficiency with best-of-breed software and hardware.

• Better management, flexibility, and security
• Secure online delivery of material anywhere the student is
• Create secure student and teacher logins

1:1 Deployment
Develop your 1:1 deployment solution with Centre Technologies for a smooth, manageable, and successful operation.

• One tablet, computer, or laptop per student
• Increase student efficiency and engagement
• Reach students with different learning styles

You develop the world’s most precious asset: our children. Let us develop an IT solution to develop and protect your assets. Contact us directly at 281-506-2480 to get started today.
